

## HOTMELT ADHESIVE SOLUTIONS

### Hotmelt Adhesives for Packaging Industry

Tamtut Hotmelt Adhesives for packaging applications, developed for the most demanding application processes such as Case & Carton Sealing; Drinking Straw; Folding Carton & Boxes; Carton Packaging; Food & Consumer Packaging; Carton Closing; Bonding Paper and Carton

**Benefits;**

- Excellent adhesion to difficult substrates,
- Outstanding Cold flexibility and Heat resistance,
- High Thermal Stability,
- Low Consumption,
- Wide service temperature range,
- Excellent flow behavior,
- Less maintenance,
- No fumes, no smell, no tainting,
- Reduced gel and char formation - No plugged filters and nozzles, reduced downtime and lost production,
- Approved for direct food contact.

### Hotmelt Adhesives for Labelling

Fullbond Hotmelt Adhesives are used in all kinds of Labelling Applications.

**Advantages;**

- High Quality Labelling Applications,
- Economic, Easy, Efficient and Reliable Production,
- Wide variety of Applications,
- High Performance,
- Superior adhesion to a wide range of materials.

### Hotmelt Adhesives for Plastic Caps

Fullbond Hotmelt Adhesives are used in packaging industry for bonding of PP Caps and Closures on PE coated cardboard.

### Hotmelt Adhesives for Pallet Securing

Fullbond Hotmelt Adhesives secure packages together to form a uniform pallet load. Pallet stabilization protect packages from damage before, during and after shipping.

### Hotmelt Adhesives for Bookbinding Industry

Tamtut Hotmelt Adhesives for bookbinding industry for perfect binding, side gluing, end-papering and spine gluing in bookbinding machines.

### Hotmelt Adhesives for Woodworking Industry

Tamtut Hotmelt Adhesives for woodworking industry for bonding of Melamine Edge Banding, Soft and Hard PVC Edge Banding.

### Hotmelt Adhesives for Filter Industry

Tamtut Hotmelt Adhesives for filter industry especially, during the production process, for fixation and pleating of filter papers.

### Hotmelt Adhesives for Carpet Industry

Tamtut Hotmelt Adhesives for production of carpet especially for the process of carpet-eaves in textile industry.

### Hotmelt Adhesives for Lamination and Coating

Fullbond Hotmelt Adhesives are used in all kinds of lamination and coating with such materials Fabric, Nonwoven, PE Lamination.

### Hotmelt Adhesives for Patch Handle Bags

Fullbond Hotmelt Adhesives are used in the production of Patch Handle Bags for handle reinforcement on polyethylene carrier bags.

### Hotmelt Adhesives for Cargo Bags

Fullbond Hotmelt Adhesives are used in the production of Cargo Bags.

### Hotmelt Adhesives for Automotive Industry

Fullbond Hotmelt Adhesives are used in Automotive Industry for filters and other applications.

### Hotmelt Adhesives for Mattress Industry

Fullbond Hotmelt Adhesives are used in the production of Mattresses in all types of machines with excellent adhesion properties.

### Special Hotmelt Adhesives for Industrial Applications

Can Kimya A.Ş. supply different range of products. If you need a specific product which you cannot find in our catalog or web site,
